

ENERGY+ INC.

**2nd Year Apprentice up to Journeyperson Powerline Technician
(Cambridge Location)**

Energy+ Inc., delivers safe and reliable electricity to 67,000 residential and commercial customers in Cambridge, North Dumfries, the County of Brant, and areas around Brantford. The company's Vision is to be the energy company most admired for its innovative people, reliable service, and outstanding performance. Energy+ received a Business of the Year Award (Over 50 Employees) from the Cambridge Chamber of Commerce, The Spirit of the Community Award from the United Way Waterloo Region Communities and is recognized as a Top Employer in Waterloo Area in 2020 and 2021.

You have picked your profession and you are almost to the finish line! We want to help you go the distance. Your career aspirations are to become fully competent with the construction, repair and maintenance of overhead and underground electrical distribution systems and with all aspects of the loading and operating requirements for Radial Boom Derrick Trucks and aerial device trucks, as well as associated rigging techniques. You have gained technical knowledge on the operation of the electrical distribution system, as well as the electrical equipment that comprises the electrical system. You will be expected to apply all areas of the Health and Safety program to your work, assist in assembling material for construction and maintenance projects, and pass the curriculum requirements to achieve qualified, competent journeyperson status. The successful candidate must be able to respond to our service center within 30 minutes in order to meet on call requirements of the position.

An energetic, motivated individual with a good work ethic and strong oral and written communication skills, you are physically fit to work outdoors in all types of weather conditions. You must hold a valid driver's licence in good standing, preferably an AZ or DZ class. If you do not hold a AZR licence you will be willing to obtain it. The successful candidate will have completed Level 2 of MEARIE or IHSA Powerline Technician Training and will have completed at least 1000 hours of Apprenticeship Training. In addition, a membership in good standing with the Ontario College of Trades as an Apprentice Powerline Technician is also required. Completion of a Powerline Technician Diploma from a post-secondary institution is considered an asset.

We offer an excellent working environment, career path exploration and development opportunities, a comprehensive total rewards package, and opportunities to get involved with teams and charitable events that support and make a difference in our community. To become a member of our team, please forward your resume by May 7, 2021 to careers@energyplus.ca. When applying for the position, please quote "**2nd Year Apprentice up to Journeyperson Powerline Technician**" in the subject line.
